DUMBO/Fulton Ferry Landing Re-Location & Upgrade

FULTON STREET PROPOSED SITE PLAN

Upcoming Landing Closures

Closure Details

- *Starting today (Monday, April 5), the DUMBO (and South Williamsburg) ferry landings will be closed for 8-10 weeks*
- *The ER and SB routes will bypass DUMBO during this time*
- *Construction will take place Monday – Friday from 7 AM – 3:30 PM*
- *Alternate transit options during construction:*
 - *B25 bus on Old Fulton St & Elizabeth Pl*
 - *A/C train at High Street*
 - *2/3 train at Clark Street*
 - *Citibike on Old Fulton St*
 - *Walk 20 minutes to Pier 6-Atlantic Ave. NYC Ferry*

New Landing Benefits

- *Allow Bargemusic easy waterside access*
- *Improve ADA accessibility*
 - *The new barge will allow for both slips to operate with electric bow loaders, ensuring that anyone with a wheelchair, stroller, bike, cane, etc. has safe access to the ferry and the landing*
- *Improve ferry operations*
 - *Due to currents in the East River, docking is often not feasible at land-facing slips, creating a bottleneck*
 - *Re-orienting the barge will provide safe docking for the ferry vessels*

Thank you
